**Extension certification:**

# Faculty of Information & Communication Technologies

# Electronic Assessment Submission Policy

## Late penalties:

Assignments or projects which are submitted after the due date and time will attract a penalty of 10% of the total marks available per working day late, up to a maximum of five working days. Assignments submitted after five working days will be graded with zero marks.

## Extensions:

Extensions will only be granted in exceptional circumstances on medical or compassionate grounds. **Extensions must be applied for in advance of the assignment's due date** and the convener of the appropriate subject must record the extension in ESP.

## Assessment Irregularity:

Cheating and plagiarism, i.e. the action or practice of taking and using as one's own the thoughts, writings or other work of someone else with the intent to deceive, constitute irregularities as described in the SUT handbook. Such actions are a major infringement of the University's academic values and will be dealt with severely. Students are referred to the *Procedures Relating to Student Assessment and Appeals* for further details.

Plagiarism and/or cheating occurs when:

- a computer program or part of a program, substantially written by someone else (either another student, a previous student, the author of a publication or some other person) is presented as one's own work;

- paragraphs, and even sentences in essays which are written by someone else, are not enclosed in quotation marks, and accompanied by full reference to source;

- the work of someone else is paraphrased, and is not appropriately attributed and referenced.

## Group Work:

By signing the cover sheet, group members are indicating that they agree that each member of the group made a fair and reasonable contribution to the assignment or project. In cases of doubt or dispute, individual members of the group may be required to undergo an oral examination regarding their contribution to the assignment or project.
